

**Education is evolving worldwide as the geographical borders are fading and the opportunities the world has to offer is compounding- the teaching practices, learning pattern and pedagogy structured for out of classroom learning, which defines the importance of educational practices globally.**

# When world is the Goal!

Laurel High Global School has been established to prepare confident individuals for the challenges in the international arena effectively for a seamless and successful transition. The school has adopted the universally accepted and acclaimed Cambridge International Primary (CIPP), an extensive and intensive program that suits the 21st-century learning needs.

Learning landscape is meticulously designed and established on Children and their Learning Styles, which is unique for every child. The school believes in child-centred learning in a child-friendly environment to nurture critical thinking to solve problems, finding right expression, respect for cross cultures and team spirits.

*The scholastic zones and open-learning hubs at Laurel High are structured for smooth functioning and put them for optimum use of the school's well-defined physical, academic, extracurricular or leisure time activities.*

## The platform to get set, fly.

LHGS is a K-10 school spread over 6-acre land with 1,35,000 sft. of ultra-modern infrastructure. An extensive research-based infrastructure and ambience have been so designed as to enhance and justify Cambridge International curriculum and Central Board of Secondary Education respectively.

Creatively designed green zones keep the students fresh and active. The vast playground with athletic track keep them physically fit and invigorated.

'Laurel High Global School' offers a world-class global learning environment to prepare children for the future with Creativity, Courage, Confidence and Competence. The school paves the path for experimental, corroborative learning that lasts a lifetime. The entire campus has been demarcated into different activity zones for age-specific learning. Large open green has been left untouched for students to enjoy the expanse.
